## My Analysis of Bilderberg 2008

[Editor's Note: See the e-mail I received from Stefan Fobes at the bottom of this page. I like his use of the spelling "Al-CIAda" attackers/hackers. It tells the whole story right there. I think this is the third article we've put up from Stefan Fobes. He's quick and can immediately zero in on the Game and the Players; well worth reading...Ken]

### My Analysis of Bilderberg 2008 by Stefan Fobes (July2, 2008)

<http://warofillusions.wordpress.com/2008/06/23/my-analysis-of-bilderberg-2008/>

This year's gathering is quite a unique one. The Prince of the Netherlands joined his mom Queen Beatrix this year. And of course Queen Sofia of Spain attended, as always.

We've got **Fouad Ajami**, who seems to be a regular. He's Director of the Middle East Studies Program at the **Paul H. Nitze School of Advanced International Studies, Johns Hopkins University**. Another Arab mask on the NWO face. Probably being ordered to continue misrepresenting Arab culture to youth and propagandizing for the agenda.

**Keith Alexander/NSA Director** - Some new dirty tricks to watch for this year. Probably some more internet or communications stories put out to intimidate those who are up in the air decisionwise on whether or not to stand up for their rights. Headline stories, possibly started in fellow attendee **Donald Graham's Washington Post**.

**European Commissioners Peter Mandelson** of England, **Joaquin Almunia** of Spain, **Neelie Kroes** of the Netherlands, and **Charlie McCreedy** of Ireland. All of these guys are commissioners for monetary and business related positions. Watch for significant EU actions that will have something to do with these pieces of the pie and policies that will strengthen big corporations, most likely at the benefit of the working public.

**George Algoskoufis/Greek Minister for Economy and Finance**. - The Illuminati have a plan to equalize things by economically raising up poorer countries and lower down richer ones, such as Britain and the US. Thus you see the influx of Arab, African, and Mexican immigrants thrown into those countries due to Illuminati created wars and financial crises.

Algoskoufis has done much for the Greek economy. He is probably being ordered to keep things going in line with this.

**Roger C. Altman/Chairman, Evercore Partners, Inc.** - Evercore's website characterizes their advisory managers like this: "Evercore advisory professionals serve as trusted senior advisors to top corporate officers and boards of directors, helping them devise strategies for enhancing shareholder value."

So they are have the corporate dukes and earls ears. Imagine what power an esteemed advisor with expert (whatever the Illuminati wants them to do) knowledge has. Evercore also manages other people's money, including pension funds. Now, if you wanted to hit a company hard, just "manage" the money the right way, activate the newsdroids with talking points, and you get the public demanding whatever they want instituted. Any new pension fund scandals, check for the Evercore connection.

**Ali Babacan/Turkish Minister of Foreign Affairs.** - Probably told to get things moving faster with the EU. The [ethnically divided Cyprus](#) seems to be blocking Turkey's EU integration. He will probably try and broker something real quick to rectify this.

**Peter van Balkenende/Dutch Prime Minister.** - Likely was told to keep the EU treaty on the table no matter what, and to help push more civil liberties thefts. What little liberties the Dutch have left, anyway.

**Franco Bernabe/CEO, Telecom Italia Spa** - Probable cooperation with the government in accordance with some future spying on the Italians. Also might help push through Internet2.

Key attendees include:

**Kenneth Clark/Conservative Party Member of Parliament, Britain.** - *Longtime* Bilderberger. Has pushed the EU in Britain like it was to save his life. Still does. Still will.

**Carl Bildt/Swedish Foreign Minister** - Isn't it interesting that within two weeks of Bilderberg, the Swedish legislature passed a law where the government monitors all communications in order to fight "terrorism". Sweden a terrorist target? Haha. Yeah it is when you see that the government is the terrorist and the people the targets. This guy is another classic EU PR man.

**Tom Daschle/Former Senate Majority Leader** - Now this was really unexpected. Watch for this guy to serve in an Obama presidency. He has rejected the possibility of being Vice, but [wants instead to be Health and Human Services Secretary](#). Strange want, that. He's going places, for sure.

**Antonio Costa/Mayor of Lisbon & Rui Rio/Mayor of Porto** - These are the two largest cities in Portugal. Something is being planned for the people of Portugal. The EU Constitution has been named the Lisbon Treaty, and a terrorist attack would help the EU treaty real well at this point, as well as a couple of reliable mayors who would help steer Europe in the "right" direction with moving speeches.

**The Federal Reserve Bank of New York President Timothy Geithner and Fed Chairman Bernanke** were in attendance, as well as **Jean-Claude Trichet, EU Central Bank President, Mario Draghi**, the head of Banca d'Italia, **Josef Ackermann**, Chairman of the Management Board of Deutsche Bank AG, **Tom McKillop**, Chairman of the Royal Bank of Scotland Group, and **Seppo Honkapohja**, Board member of the Bank of Finland. Bilderberg hunter **Jim Tucker** has reported from his sources that the European Bilderbergers are not in favor of an Iran war because of its economic effects — it'd crash things too fast. He said Bernanke might raise interest rates, and Bernanke has made gestures towards this already. Already the prospect of higher interest rates have caused oil to drop below \$131 a barrel.

The real stars of the show, in my opinion, are **Martha J. Farah, the Director of the Center for Cognitive Neuroscience**, and **Walter H. Annenberg, University of Pennsylvania Professor in the Natural Sciences**. Jim Tucker has revealed that [Bilderberg want their beloved chip](#) in us this year. These two attendees combined knowledge of biochemistry, the brain, and neuroscience would do well in this. Watch for these guys on *60 Minutes*, PBS, or the History Channel. Tucker also says that the justification for this would be to help treat a patient in an emergency situation. Probably might let the lid off of rampant medical malpractice and use that as an opener or something in the media that will tug at the heartstrings. Also, a new influx of blond haired/blue eyed terrorism is also planned to fear us into this. The only place I could think of where the blondes are militant enough and Muslim enough (to maintain congruence with the Al-Qaeda myth) would be Eastern Europe. I'd advise looking for any militant Muslim mass gatherings of those peoples there.

**Harold E. Ford, Jr./Merill Lynch Vice Chairman** - He might call for an amero this year due to the weak dollar.

Various so called journalists showed up, including **Paul Gigot of the Wall Street Journal**, some guy called **Zeynep Gogus, founder of Euractiv.com.tr**. The Illuminati love to fund fake groups so it looks as though there is grassroots support for their agenda. Other fake journalists include **Oscar Bronner, publisher and editor of Der Standard**, **Matthias Nass**, Deputy Editor of Die Zeit, **Flemming Rose**, editor of Jyllands Posten, and the foriegn and business correspondents at The Economist.

[The Financial Times already published that article by New York Federal Reserve Head Geithner](#), and we should expect to see some pieces blasting Ireland for their no vote in the EU. Most of the news representation here is European so we'll definitely

see an explosion of EU propaganda or forums for those who are putting it out.

In addition, some pro global warming or cooling fluff, the miracle of the new microchip brought out by Farah's Center for Cognitive Neuroscience and scientifically backed by **Professor Walter Annenberg**. Judging by the recent rapid centralization, as we can see by **Sarkozy trying to integrate even African countries** into the EU, we will see in these papers more shilling for the EU and the Asian Union, so Asian countries can better assist and more efficiently interact in the event of disasters like Burma and China. Some of these puppets will also come out lauding the concept of a single currency.

Some media barons are there. **Charlie Rose** came this year. Very eye catching! He will give these puppets a soapbox for selling us Bilderberg plans, you can bet. **Robert Pritchard, the head of Torstar Corp.**, which owns the **Toronto Star**. More support for hate speech laws you will see there, probably supporting the hellish **Canadian Human Rights Commission**. The head of French Television and Wire Service **Christine Ockrent** was there, so we can see some pro Sarkozy stuff, probably putting out more stuff on that flamboyant wife of his to take the heat off of him. Which was probably what that marriage was really about, when you look at what she says all the time.

**World Bank President Zoellick** was there, along with ex-Bank Presidents **Wolfowitz and Wolfensohn**. Will definitely call for a world bank and/or global currency.

The genetic freak **Richard Perle** was there, probably called in to calm down shilling for Iran. **Condoleeza Rice** was there pushing for it, but the Europeans were against it. They appear to be more senior than the Americans. Of course they are because America never won its independence in the staged war with Britain. Just like South Africa is still controlled by Britain through the **Oppenheimers** and **Rothschilds**.

**Royal Dutch Shell Chairman Jorma Olila** was in attendance, will probably cut down oil prices in accordance with Bilderberg fears that things are going to hell too fast.

And some more shockers. **Google CEO Eric Schmidt** was there. Google gained a bit of buzz in '06 when they developed their **sneak and peek through your PC microphone** software which let them listen in (and record) what is being said and serves you ads off of that info. We should see them coming out with more of the same, as well as buying up more companies. A stated topic by Bilderberg itself was **cyberterrorism, which means anyone exposing the agenda**. Some **AI-CIAda hackers** might start popping up. So I guess Google will start messing around with youtube and the search engine, as well as help develop spying technology and software this year. Lovely. Possible **Internet2** pushing along with Time Warner and Microsoft.

**Microsoft Chief Research and Strategy Officer Craig Mundie** appeared. This guy is in charge of immediate policy implementation at Microsoft, so since they haven't invited the CEO, this suggests a plan that needs to be rushed through fairly quickly. He holds a master's in information theory and computer science, which raises my hairs because when I looked up on Wikipedia what information theory is I found a section of the entry that said: "The field is at the intersection of mathematics, statistics, computer science, physics, neurobiology, and electrical engineering. Its impact has been crucial to the success of the Voyager missions to deep space, the invention of the CD, the feasibility of mobile phones, the development of the Internet, the study of linguistics and of human perception, the understanding of black holes, and numerous other fields."

This is just the perfect skill set required to know how a microchip would function, and people would accept it more easily if they would have some extra enticing features such as internet interfacing or a new way to talk to your friends. The Microsoft microchip...could it be?

Out of Canada we have **Heather Reisman, CEO and Chair of Indigo Books**, the largest book chain in Canada, taking her orders. This chain has engaged in censoring in the past. They removed Hitler's Mein Kampf from the shelves and also issues of magazines that printed the cartoons of Mohammed. Canada is one of the top repressive countries in the world free speechwise. They might continue doing even more censorship this year. Might start censoring anti North American Union or anti immigration books and magazines. They are one of the top 100 employers in Canada so they might use that position to crush Canada and start outsourcing jobs to South America or Mexico. Big layoffs may be in the works.

Not many people cover the individual Bilderbergers themselves. If anyone has any info confirming any of this, or any other police state/world government statements or activities by Bilderberg attendees, just send it in to [stefobes@gmail.com](mailto:stefobes@gmail.com) and it'll be posted on the Bilderberg Watch area.

Subject: Article I wrote on things discussed at Bilderberg that are now headline news events

Hey, Ken! Thanks for the promo there. That meant a lot there. I did a little follow up on Bilderberg afterwards and found some events occurred which relate to what was discussed there. Piled it all into an article.

\*\*\*

Earlier this week, in [my analysis of Bilderberg 2008](#) and what it held for the world this year, I pondered on whether there would be Al-CIADA hackers let loose, as cyberterrorism was being discussed this time. And yesterday, some hackers [messed around and made the official sites of the organizations overseeing the web's key routing infrastructure](#) and domain name regulation systems point to a site displaying this message: "You think that you control the domains but you don't! Everybody knows wrong. We control the domains including ICANN! Don't you believe us?"

Did a ten year old write that? Oh...oh...uh...you buh...believe us don't you? This is exactly like the 9/11 "cellphone" call from Flight 93 where [someone called passenger Mark Bingham's mother](#) and said, hi this is Mark Bingham, and then when asked by Bingham's mother who the guys were that they said had a bomb on the plane, they asked, You believe me, don't you? Voice cloning technology has long ago been perfected by governments. Here's a bit from [the Washington Post](#):

"Gentlemen! We have called you together to inform you that we are going to overthrow the United States government." So begins a statement being delivered by Gen. Carl W. Steiner, former Commander-in-chief, U.S. Special Operations Command.

At least the voice sounds amazingly like him.

But it is not Steiner. It is the result of voice "morphing" technology developed at the Los Alamos National Laboratory in New Mexico.

By taking just a 10-minute digital recording of Steiner's voice, scientist George Papcun is able, in near real time, to clone speech patterns and develop an accurate facsimile. Steiner was so impressed, he asked for a copy of the tape.

Continues with some stuff about psyops, which is exactly what, among other things, 9/11 and this "hacker attack" was. Whoever did it claimed to be the NetDevilz and said they were Turkish. Please! Any hacker good enough to hit these critical websites would know that the NSA and other government agencies have the capability to trace their location in under an hour, and be at their door in six more hours at best. There were two high school kids in New York who [emailed Homeland Security last year as a prank](#) and death threatened Bush, and in just four hours Secret Service agents swooped in and arrested them. That's the reality of things. Corporate websites and the CIA and FBI's sites have been hit and defaced many times over the years and the people who did it never have revealed anything personal like country of origin, most times not even the name of the crew that they run with. It's like I'm watching some fake Hollywood movie where some 13 year old on his mom's laptop takes down the whole government. They treat us like total idiots and it has to stop.
